

*Compassion, Commitment, Recovery*

---

**To our Medicare Patients**

Please be advised that effective January 1, 2015, Medicare's Deductible is \$147.00. The cap limit for Physical Therapy is \$1940.00 for outpatient physical therapy (PT) and speech-language pathology (SLP) combined and \$1940.00 for occupational therapy (OT). Based on our calculation you will be covered for approximately 15-16 visits. Our front desk will keep track of this cap and once you are close to meeting this limit, the therapist will do a re-evaluation and advise you and the front desk on how to proceed. Medicare does have an exception process we can follow for you to continue your therapy. This requires us to submit an authorization to the Manual Medical Review Dept at Medicare. If you have any questions, please do not hesitate to speak to our front desk or call our billing dep at 973-891-1080.

**Thank you for choosing ActiveCare Physical Therapy!**
